## Yajilin Battleships by Serkan Yürekli

### Theme: Clockwise Sequence

Variation of Battleships and Yajilin. Place the fleet of ships in the grid so that no ships touch each other, even diagonally. The grid contains internal clues (a number and an arrow) that show how many ship segments are in the indicated direction. All remaining white cells that do not contain a ship segment must be able to form a single loop, as in a Yajilin puzzle.

## Killer Sudoku by Grant Fikes

### Theme: Clue Symmetry and Logic

Rules: Place a digit from 1 to 9 into each cell so that no digit repeats in any row, column, or bold outlined region. The sum of the digits in each cage must equal the value given in the upper-left corner of that cage. Digits cannot repeat inside a cage.

## Starship Battle by Carl Worth

### Theme: One-sided Battle

Combination of Battleships and Star Battle. Follow standard Battleships rules.

Also, exactly one ship segment is present in each bold region.
